

# Our Story

Foxyxy Resort's dedication to the safety and happiness of your fur baby was inspired by my son, Gage, and his love for animals.

Sadly, Gage was born critically ill and passed away when he was only 13 years old. There are no words to describe losing Gage. A promise I made to him was to care for his fur baby, Grim. This promise evolved into a deeper understanding of how important our fur babies are and a desire to be trusted enough to care for other fur babies, knowing Gage would have adored meeting your precious pet.

During Gage's hospitalizations, pet therapy would bring trained dogs to see Gage. Dogs trained to remain calm and lay in bed with him, or take walks with him. Animals have an incredible ability to emotionally support us in ways people aren't able to. Although, he wanted to be home with Grim, he was thankful for every therapy dog who came to visit.

We would like to bring awareness to the numerous charities/volunteers who help support critically ill children and their families, such as, Ronald McDonald House Charities. In our experience, RMHC is a wonderful non-profit charity, offering families a home away from home.

Foxyxy Resort will serve as your precious pet's home away from home and we donate \$5 of every overnight booking, to RMHC of Cincinnati, in memory of Gage.

Thank you for trusting us with your fur baby.

Our goal is always Happy Pets & Peaceful Minds

~Foxyxy Resort~
